

The Kaleidescape System

The Ultimate Entertainment Experience

kaleidescape™

Oceans 12. DVD cases nil.

It's been called the Best of the Best by Robb Report. Others have described it as a one-of-a-kind entertainment experience. It's been identified as one of the hottest trends in home entertainment. It's the Kaleidescape System, the award-winning entertainment server that delivers an experience that is more exciting and compelling than ever before.

The Kaleidescape System will simplify the way you collect, manage and enjoy your movies and music. You'll say goodbye to the clutter of all those DVDs and CDs, and to the frustration of having to organize them over and over. You'll be able to reclaim the valuable space that is used to store all those discs because your entertainment collection will be secure on the Kaleidescape System's fail-safe hard disks.

Best of all, the Kaleidescape System will enrich your entertainment experience! It uses your onboard network to instantly deliver movies and music to any room. And because the Kaleidescape Interface is so simple and intuitive, your family and guests can enjoy your movies and music at any time.

The Kaleidescape System has virtually unlimited expansion capabilities. Whether you own thousands of movies and albums, or have dozens of rooms on your yacht, the Kaleidescape System was designed to satisfy even the most acquisitive entertainment aficionado.

2001 DVDs. A Space Odyssey.

Let's face it, tracking and managing your DVDs, CDs and home movies can be a tedious, frustrating and time-consuming endeavor. With the Kaleidescape System, your collection is safely and securely stored as digital information on hard disks. As your collection grows, additional Kaleidescape Servers can be added to provide all the storage you need.

Simply import a DVD or CD and its contents will be cataloged automatically. Using Kaleidescape's exclusive Movie Guide and Music Guide Services, your Kaleidescape System automatically obtains information about each movie and album, including high-resolution cover art, a brief synopsis, production and artist details, as well as ratings, year of release, running time, and video bookmarks.

After importing your DVDs and CDs into your Kaleidescape System, you can leave them at home or put them in storage.

Even if you have thousands of DVDs and CDs, the Kaleidescape System lets you effortlessly select and enjoy any movie or song from anywhere on your boat. Instantly.

Description:

Jazz has been called America's classical music, and for good reason. Along with the blues, its forerunner, it is one of the first truly indigenous musics to develop in America, yet its unpredictable, risky ventures into improvisation gave it critical acclaim with audiences that the blues lacked. At the outset, jazz was dance music, performed by swinging big bands. Soon, the dance elements faded into the background and improvisation became the key element of the music. As the genre evolved, the music split into a

Apocalypse Now. Now!

Once your collection has been imported into your Kaleidescape System, the first thing you'll notice is that everything happens NOW. No searching, no fumbling with cases. No waiting. The Kaleidescape System redefines the meaning of instant gratification.

Simply press PLAY, then sit back and enjoy. No menus, no trailers, no FBI warnings. Because the Movie Guide Service provides patent-pending video bookmarks, you can navigate instantly to the beginning of a movie, a favorite scene, a trailer, an episode of a television series, or your favorite song on a music video.

You can create multiple favorite scenes, script a playlist, or pause a movie in your living area and finish it in the bedroom. You can even get your children to go to sleep because they know they can resume their movie tomorrow.

The intuitive and elegant Kaleidescape Interface allows anyone to quickly locate and play any title in your collection.

Short Cuts

The Kaleidescape System can be controlled in a number of ways. Whether you use a simple IR remote or a sophisticated touch screen, the award-winning Kaleidescape Interface allows you to effortlessly manage and enjoy your entertainment collection. Even small children enjoy finding and starting their own movies, and you can easily protect children from accessing inappropriate content.

The Kaleidescape System provides a wide choice of automation cues that, when combined with advanced control systems from manufacturers like Crestron and AMX, can automatically control lighting, set the screen masking and make all the audio and video playback choices to optimize your viewing experience. It’s like having your very own projectionist!

Kaleidescape provides touch panel designs for easy control of your Kaleidescape System.

Mission Impossible. Made Easy.

Kaleidescape has made it easy to own the very best movies that capture the excitement, glamour and drama that motion pictures can deliver.

Our carefully compiled DVD collections contain the most popular, highly acclaimed and artistically innovative films ever made.

Each DVD collection is designed to help you build an impressive movie library. For example, *Kaleidescape’s Critics 150* are arguably the “best movies of all time.” Kaleidescape also offers a *Family Collection* that includes over 100 popular movies, perfect for the whole family, and a *Preschool Collection* with 90 titles ideally suited for 2- to 5-year olds.

Kaleidescape’s DVD collections are designed to complement and complete your growing movie collection while showcasing the stunning capabilities of your Kaleidescape System.

Houston, We Don't Have A Problem.

There's one point we can't emphasize too strongly. We deliver proven reliability.

Systems that depend on disc handling and mechanical changers are notoriously undependable. That's why we've used the minimum of moving parts and a fault-tolerant architecture – which is comforting when you're weeks away from the nearest port where repairs can be made.

In the unlikely event of a hard disk failure, everything is automatically protected by a proprietary fail-safe storage technology called RAID-K, to ensure that your movies and music are safe. A crew member can easily replace a failed disk, without you ever knowing there was a problem.

Nothing will convince you more than a full demonstration. It's something of a revelation to see how Kaleidescape utterly simplifies the whole experience, and unlocks the full excitement, enjoyment and entertainment value of DVDs, CDs, and home movies.
